SUMMARY

Master of Data Science student with experience in data analysis, visualization, and AI-based software development. Skilled in Python, SQL, Power BI, and machine learning, with strong problem-solving skills and research experience. Passionate about applying data science and analysis to real-world problems.

EDUCATION

The University of Western Australia <i>Master of Data Science (WAM: 86.5 - Semester 1)</i>	Jul. 2025 – Present
New Horizon College of Engineering <i>Bachelor of Engineering in Computer Science with Honours (CGPA: 9.13 / 10)</i>	Aug. 2019 – Jul. 2023

EXPERIENCE

Facilitator – Relational Database Management Systems (CITS1402) <i>The University of Western Australia (UWA)</i> - Taught weekly labs and conducted demo interviews for the semester project. - Worked alongside the teaching team to correct papers for the mid-semester test and final exam.	Mar. 2026 – Present <i>Perth, Australia</i>
Data Annotator <i>Network Analysis and Social Influence Modelling Lab, UWA</i> - Verified LLM generated translations for prompts in Hindi and suggested corrections. - Verified the correctness/cultural appropriateness of responses for the specified prompts.	Dec. 2025 – Jan. 2026 <i>Perth, Australia</i>
AI Engineering Intern <i>Offergrid Networks Pvt. Ltd.</i> - Built AI-powered conversational agents for penetration testing using the OpenAI API. - Developed an autonomous Python-based AI Agent capable of delivering product demos and presentations.	Jan. 2025 – Jul. 2025 <i>Bangalore, India</i>
Associate Software Engineer <i>Eurofins IT Solutions</i> - Developed and integrated new features into a C# .NET and Angular-based web application. - Reduced technical debt via code refactoring and resolved critical bugs. - Worked with a multinational team of 10+ engineers/stakeholders to ensure alignment with sprint goals.	Jun. 2023 – Jun. 2024 <i>Bangalore, India</i>

PROJECTS

Polarization Type Classification <i>Python, PyTorch, Huggingface, Modal, Openrouter</i> - Experimented with LLMs and MLMs, both open source and proprietary, to classify polarized social media messages. - Manuscript accepted for publication in ACL Anthology (through SemEval-2026).	Nov. 2025 – May 2026
Digital Music Store Analysis <i>PostgreSQL, Power BI</i> - Analyzed the Chinook database to extract key insights. - Connected PostgreSQL to Power BI, applied transformations in Power Query. - Created an interactive dashboard using column charts, line graphs, treemaps and other visuals.	Dec. 2024 – Jan. 2025
Breast Cancer Histopathology Classifier <i>Python, TensorFlow, Scikit-learn</i> - Published in IEEE Xplore and presented at the IEEE 3rd CONIT 2023 conference. - Benchmarked various machine learning models (SVM, CNN, Random Forest) on breast histopathology image data. - Created a web app with Flask REST API and Angular front-end.	Aug. 2022 – Mar. 2023

TECHNICAL SKILLS

Data Science & Analysis: R, Python, SQL, Statistical Modelling

Machine Learning: Scikit-learn, PyTorch, Language Models, Fine-tuning

Databases: PostgreSQL, MySQL, Microsoft SQL Server

Data Visualization: Power BI

Software Development: Angular, C# .NET, Azure DevOps, Flask, Agile

CERTIFICATES AND TRAINING

Introduction to Machine Learning

Duke University via Coursera

Harnessing the Power of Data with Power BI

Microsoft via Coursera

Data Analytics with Python

IIT Roorkee via NPTEL

Data Science for Engineers

IIT Madras via NPTEL

CO-CURRICULAR AND EXTRACURRICULAR ACTIVITIES

- Active member of University Computer Club, Data Science Club, Coders for Causes, and Marine Biology Club.
- Casual Table Tennis and Snooker player (member of the UWA Table Tennis Club).
- Interested in birding and regularly attend nature walks.
- Active follower of developments in Natural Language Processing.
- Regularly volunteer with university and non-profit organizations to give back to the community.
